ASX Announcement

ETHERSTACK PLC

("Etherstack" or the "Company")

UK Government Project Revenue Increase

The Company has agreed to a scope change for its primary project in the UK announced to the market on 17th October 2025. Costs associated with additional scope have been agreed with the government and will deliver a revenue uplift of £0.5m (US$0.7m) and a corresponding increase to the ongoing support and maintenance fees.

Management expects these additional project revenues to contribute beneficially to H1 FY27. Etherstack has a 31 December financial year end.

As noted in previously commentary, management notes that projects of this nature typically have scope for both functional, durational and revenue growth over the forward project lifecycle.

Authorised for release by Adam Hoey, Company Secretary.
